Dear Mr. Antion,

Hi. I hope your week is going well.

Since you are the primary individual through whom this matter is being handled, I hope you won't mind my addressing this primarily to you. The purpose of this letter is to hopefully resolve any remaining loose ends related to your termination of my enrollment from your ABC program.

First, I have now made arrangements for the return of Mr. Dean's calculator from PFF class which should hopefully arrive by next Tuesday, please see attached.

Second, regarding the mug, please don't worry about it - it's not that big of a deal.

Thirdly, regarding the items we returned to me, our electric air pump was not returned with the Coleman mattress. Again, it's not that big of a deal - I am not seeking any sort of compensation for this; I am assuming its exclusion was merely an oversight. My purpose for letting you know is simply for squaring the record and to ask if you all would like to have the mattress itself for future use by students or others in need related to your program? It really isn't something we currently need. Understanding that you are currently occupied with your GCE, I will assume that if I don't hear from you by **May 17** (a week following the conclusion of your conference) indicating that the mattress is something you guys want, I will simply assume you don't and move forward with that understanding.

Fourthly, I had indicated to Mrs. deCampos prior to my absences that I had intended to bring her some reams of paper in consideration of the printed powerpoints I had requested during my time as a student (as well as the myriad of other handouts provided to me through the course of the program, which easily constitute close to two reams of paper in total). Unfortunately, I'd forgotten to bring them with me at that time. I am dropping in the mail to her a prepaid \$50 Staples card which hopefully may help defray some of the costs of such materials, as well as the disk you indicated in your last e-mail would be sent to us containing the audio files of the missed classes.

The last full day of classes I attended were March 5, 2013 - prior to the snow emergency, when I was asked to return to Columbus (as I indicated to Mr. Myers in an e-mail). The date of your letter expelling me from the program was April 3, 2013. I received your letter on the evening of April 16, 2013. I also have electronic handouts for classes through the remainder of that week (ending April 19).

Since you made clear from your e-mail that you have no desire to share with me the audio files or materials from classes through the remainder of this year's program which ends this month, unless you have changed your mind, I see no reason for me not to be able to request the courtesy of an answer from you or one of the others receiving this as to when we may reasonably expect to receive the disk you've promised regarding the missed classes?

May I please request the courtesy of a reply as to when we may expect the disk and which days you have chosen to include? If we don't receive any reply &/or if we don't receive the disk by **June 14** I will simply conclude that the disk will not be coming. As June 14 date is a full three weeks following graduation, I believe it should provide ample time. If not, please let me know. If you need an address to which to mail the disk, please mail it to our residence in [REDACTED]

Regarding my question as to the intended scope of your letter's exclusion, in the absence of a response to my question earlier this week regarding the upcoming ABC seminar mentioned in the most recent bulletin, I am assuming that given the context of your letter, that your injunction is merely referring to classes and functions that are parts of the official, certificated program, and is not intended to include seminars and other "ABC" tagged functions advertised in regular bulletins or other UCG materials, and unless I hear from you by **May 17** indicating that my understanding on this is incorrect, I will simply plan move forward with that understanding.

Thank you all for allowing me to attend the ABC program. I am sorry that I did not meet your expectations for me regarding attendance. Regarding your previous reply, Mr. Antion, I agree. Our expectations were apparently mismatched.

Frankly, with all due respect, your program wasn't what I thought it would be, both according to your brochure and other representations I had been given regarding it. I don't want a refund. While I appreciate the that your offer was well-intended, with respect, there are any number of things that could have arisen preventing my completion of the program this year, and I really have no problem with living with the results in that regard.

I simply mention this disparity to let you know, as a matter of courtesy. While there are a number of positive things I have to say about your program, unfortunately, there currently aren't enough for me to recommend or endorse it without qualifications. I am working on a report in this regard which I will be happy to share with you once it is complete, if you wish.

Hopefully, this helps to resolve any remaining loose ends regarding this matter. If not, please feel free to let me know.

Meanwhile, I wish you all a pleasant remainder of the week.

With kindest regards,
Deborah [REDACTED]

Hi Deborah,

You're right about being busy with the GCE and classes and end of the year activities!

To briefly answer your questions. We will send you the audio info for the Classes from Mar 5 – April 3. I'm putting Aaron on to this, so you should get the information before the end of May.

Regarding paying for copies of documents in the past and for the disc, there is no need to do so as we would have gladly given those to you. We will try to locate the air mattress and pump and if found will try to make arrangements to get them to Columbus area for you.

We wish you success in your future,

Gary Antion, for ABC

Dear Mr. Antion,

Hi - thank you for your follow-up.

With respect, unless you have some urgent need to do so, please do not spend time looking for the pump and air mattress to send to me in Columbus.

It's not something we have to have. As I tried to explain in my message to you, you guys have the pump. You do not have the mattress because it was returned. So, if you find our air mattress, I would be extremely concerned since it is currently sitting in our living room. I will simply conclude from your response that the mattress is not something you guys want. So, let's please just call it "even" on the pump and move on.

Regarding the Staples card, it's already done. It's no trouble. It just simply occurred to me that it made more sense to send something like that for her to use for supplies rather than bringing in the paper I had mentioned that I had reserved to bring to her when I was there.

We will look forward to hopefully receiving the audio files from March 5 - April 3 by the end of May.

Take care,
Kind regards,

Deborah [Redacted]
